> ABOUT

The DOM115 is the 35-m entry-level in the successful DOM series, with exteriors once more designed by Stefano Vafiadis.

The DOM115 retains the stylistic features that made the success of the top model in her series – timeless and yet modern, captivating lines that take to extremes the sporty character of her larger sister ship; impressive volumes, quite unique on a vessel of this size; and large, panoramic windows which let in plenty of natural light and open up onto beautiful terraces.

This model takes the concept of one single, harmonious open space to the next level: the doors of the main deck saloon can be opened completely and concealed to seamlessly connect the interiors and exteriors and, combine with the huge floor-to ceiling windows, offer a breathtaking 270-degree view.

The upper deck, too, is entirely glazed and opens up on three sides. Space has been radically rearranged finding innovative solutions, more consistent with the lifestyle of a contemporary owner seeking a closer contact with nature and the sea.

KEY FEATURES:

- Large swimming pool on the stern
- Delivery in 2026
- Official guarantee
- Italian design
