YACHTS FOR SALE

## > ABOUT

Bilgin Yachts' CEO İsmail Şengün describes the new 163 series as one of Bilgin's most ambitious projects and a perfect example of what we can offer to our clients. With exterior design and naval architecture by Unique Yacht Design and interior design by Hot Lab, the 50-meter Bilgin 163 series is as trendy and comfortable as her predecessors Snow 5 and Starburst III. The brand-new project has 20 percent larger areas compared to 48m yachts which makes her even more special. The second hull of the Bilgin 163 series -built on-spec- will be delivered in April 2024.

With a six-cabin layout, Bilgin 163 has a great harmony in the living areas thanks to her natural colors, large windows and high-gloss materials. With a 21-meter long sundeck and 12-meter long bridge-deck aft, she also offers the largest exterior spaces among her contemporaries. Berkay Yılmaz, the Commercial Director of Bilgin Yachts describes the interior of Bilgin 163- II as modern, luxurious and elegant. He says, "The yacht has very generous head heights throughout the living areas, large windows and low bulwark lines that increase the visibility in the main living room." He underlines the fact that the yacht has an abundant natural light which is a great source of warmth, comfort and health. He continues his words as follows: "A Fullheight round glass wall separates the lobby from the main living room. Hot Lab team has added special features such as a floating staircase, skylight at sundeck floor and an amazing chandelier in the main lobby."

## KEY FEATURES:

- Hull: Steel
- Delivery in 2024
- Official guarantee
