YACHTS FOR SALE

> ABOUT

Bilgin Yachts crowned the success of 263 series with the sale of the third unit in the beginning of 2022. The 80-meter Project Silence – to be delivered in 2024 – will offer 20% larger volume as well as various technical improvements, additional features for greater comfort and autonomy at sea. The shipyard partners with Antalya-based Unique Yacht Design for naval architecture and exterior design, and H2 Yacht Design for the interior design and living areas as in the other hulls of the Bilgin 263 series.

Bilgin 263 yachts have sharp exterior lines and stylish interior areas offering a modern feeling. The extensive use of a contrasting combination of rich Macassar ebony, eucalyptus and plenty of marble creates a strong identity and luxurious feeling in the superyacht.

Project Silence will be able to speed up to 19 knots with two 2,560 kW engines, while the cruising @ 12 knots keeps her fuel consumption at 280 l/h as her sistership Tatiana. What makes the new superyacht special is her optimized hull and decks. This third unit of the series offers technical improvements such as a new ventilation system and an increased generator capacity as well as 20% larger volume both in interior and exterior areas. Owner deck is located above the main deck for more privacy and the wheel house is on the top deck for better bridge visibility. The magnificent change is on the staircase located in the center of the hull and the large, round lift connecting the decks from bottom to top. The yacht has a longer upper deck and this offers extra covered area at the stern of the main deck while the swimming pool up there is a bit smaller compared to Tatiana's.

KEY FEATURES:

- Hull: Steel
- Delivery in 2024
- Official guarantee

The company is not responsible for the accuracy of the information provided by the Owner (images, yacht specification, list of installed equipment, its status, engine hours, legal issues). The engine hours are indicated at the time of placing information about the vessel on the site and are periodically updated in the future. Exact parameters and characteristics can be provided at the request of the buyer and are specified in the sales contract. All information provided regarding prices, condition, technical characteristics and / or the possibility of operating yachts on the water is for informational purposes and is not a public offer.
