€ 26,300,000
EXCL. VAT

> ABOUT

In order to accommodate diverse Owner preferences and aspirations, the Flexplorer models are adaptable, allowing for maximum flexibility in both configuration and features. This adaptability is the key attribute of the Flexplorer line.

As the name suggests, the Flexplorer has in the flexibility here main train and therefore the aft main deck can be used for different purposes. As a toys' carrier certainly, in fact a tender up to 30' a sailboats and two jet skis can easily be stored. Alternatively, some of the space can be traded to host a submarine. But once the toys are on the water, the deck turns into a sumptuous beach club, including a swimming pool. collapsible bulwarks and stairs at stem that lead directly to the sea. Evening comes and round tables can be laid with candles, soft lights. sweet scents and background music making up for the perfect atmosphere. Hours later, to close-up the day, the deck becomes an open-air dance floor. Arriving to the Flexplorer in style from the sky is also an option, as the main deck is suitable for touch and go helipad operations.

On main deck aft, both side bulwarks can be folded down. thus enlarging the deck space and offering a perfect diving platform. 6 mt in length and covered with teak. when opened the bulwarks sit perfectly flush with the main deck surface.

KEY FEATURES:

- Large spaces
- Delivery in 2026
- Official guarantee
- Italian design
