ABOUT

The 2024 Galeon 440 Fly is the perfect embodiment of Polish boatbuilding artistry, innovative design, and cutting-edge technology – created for those who value space, natural light, and impeccable handling.

Her character is defined by twin Volvo Penta IPS 650 engines, which – combined with joystick control and the Dynamic Positioning System (DPS) – make manoeuvring an absolute pleasure, while Zipwake interceptors and a bow thruster add confidence at any speed. Three comfortable cabins and two spacious heads comfortably accommodate six guests. The three section aft door and a rotating saloon sofa seamlessly merge the interior with the cockpit, creating a single, open social area. Hydraulic balconies increase the beam by over fifty percent, while the extended bathing platform with an integrated wet bar and grill turns the stern into a true beach club. On the flybridge, a fully equipped bar with a refrigerator and electric grill awaits you. Throughout the deck – from the cockpit to the flybridge – premium teak decking underscores the yacht’s luxury status. On board comfort is ensured by a powerful 52,000 BTU air conditioning system, Webasto heating, and a Fischer Panda 15,000 watt generator. Navigation and entertainment are handled by a Raymarine suite: two 16 inch Axiom XL displays at the main helm and an Axiom Pro on the flybridge, autopilot, AIS transponder, radar, a rear view camera, and a Fusion Apollo audio system with amplifier and speakers in the saloon, cockpit, and flybridge. The 2024 Galeon 440 Fly comes complete with a full set of external covers, a Bimini top, mosquito screens, underwater LED lights, and many other options that are often extra – she is fully ready to set sail immediately after delivery and deliver unforgettable moments on the water.
